8.	Professor	Prof. Lidija Pulevska Ivanovska, PhD				
9.	Preconditions for	None				
	enrolment					
10.	Course Objectives (Competencies):					
	The aim of the course Customer Relationship Management is to enable students to gain in-depth					
	knowledge in the field of customer relationship management systems and specific skills to apply					
	this knowledge in practice. To achieve these goals, the course will address the theoretical aspects					
		er relationship management, and then focus on their practical application.				
	After taking this course, students should be able to:					
	• understand the essence of the CRM concept;					
	• use data from surveys, transactions, internet, social networks, etc. for measuring and					
	managing customer relations;					
	• apply the potential of information systems to support the implementation of the CRM					
concept in business practice;						
	 identify key CRM success factors; use the Balanced Scorecard to measure the effectiveness of CRM activities. 					
4.4						
11.	Course content: Operations strategy; Principles of operations strategy; Development and					
		operations strategy; Operations performance; Supply network strategy; reness (in terms of cost, flexibility, quality, time, added value); operations strategy. Monitoring and measurement of the execution of the				
	Implementation of the operations strategy, Monitoring and measurement of the execution of the operations strategy.
